#### Resolution:

- 1) The members present take the matter. Of the visit of NAAC peer team very seriously. The works are in progress. Everyone is busy with the work of NAAC visit. Flurry of activities are going on in the full swing without harming the regular classes and interest of the students. The number of students are increasing every year and classrooms are very much insufficient. The governing body should look into the matter seriously, so that the basic interest of the students is not impeded. The authorities should see that a seminar is organised soon to enhance the quality of the teacher and students.
